

My Monster
(escape)

Plan

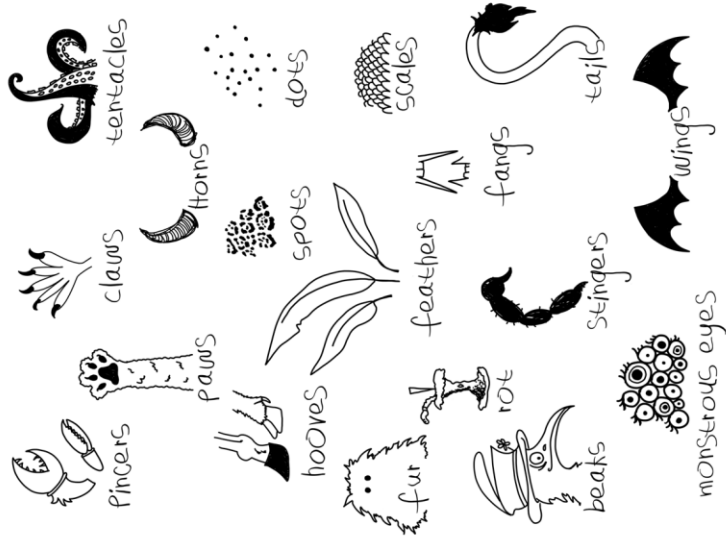

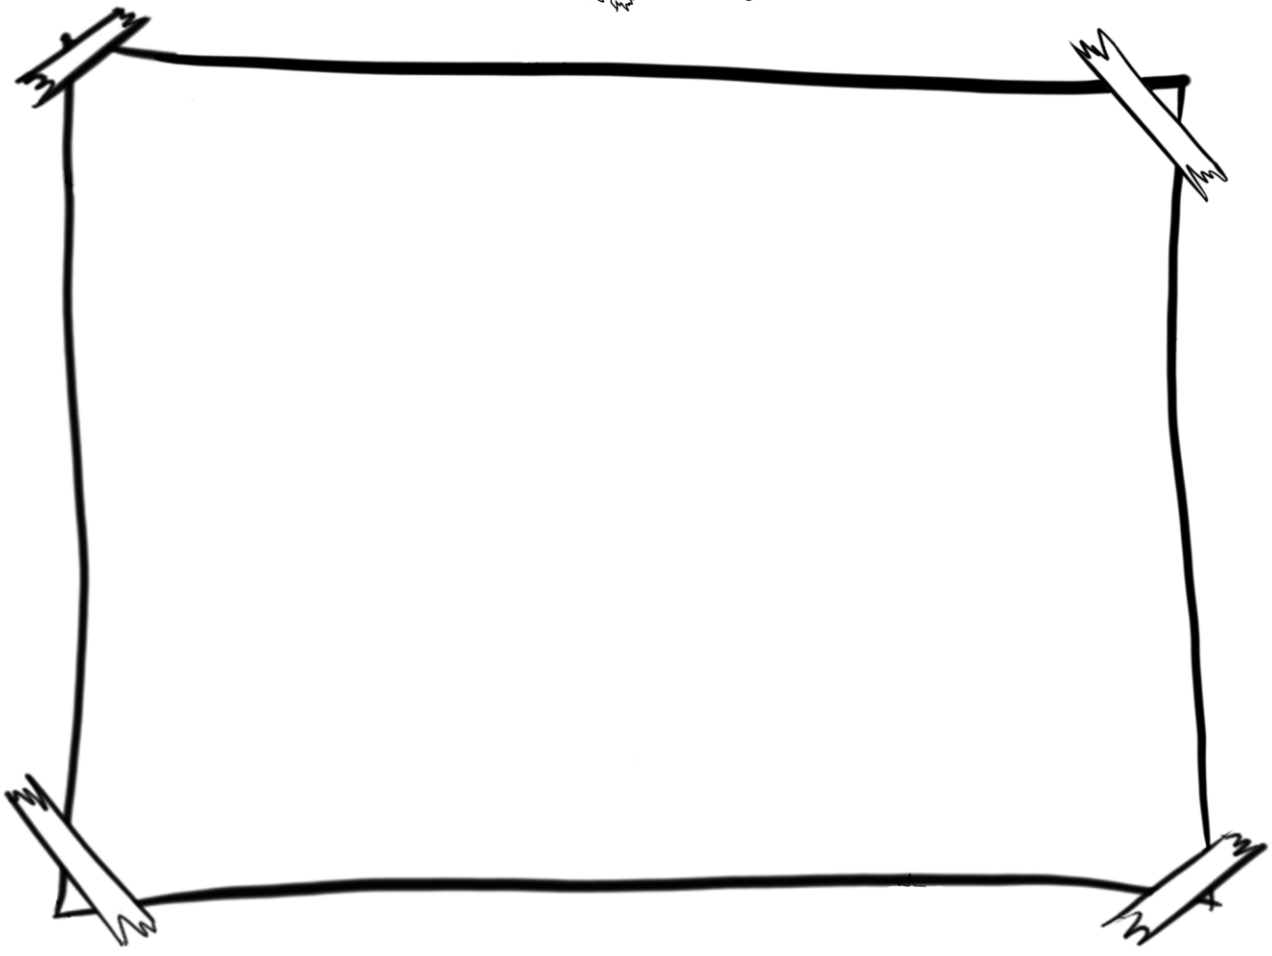

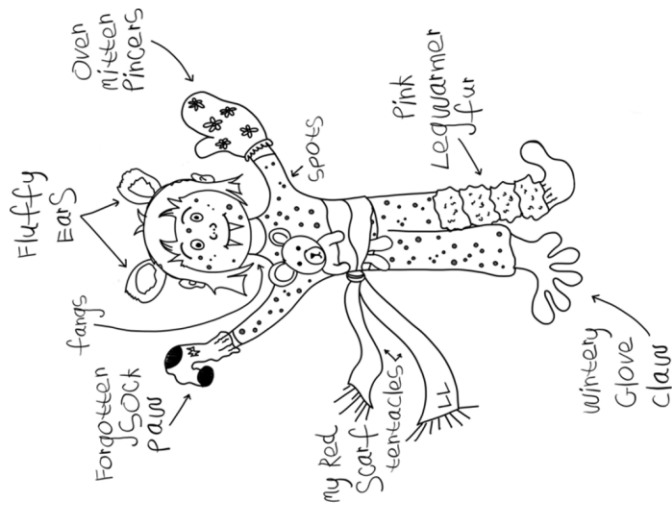

By _____

1st: You Need To:
 LOOK like a monster

Draw the best monster you!

If ever you should or could and most probably would encounter the dreaded, devilish, dauntless dust bunnies.

Monster Diagram

Use Little Lizzie's drawing and the monster diagram as a guide.

2nd: You Need To: walk like a mOnStEr

Act out how the best
monster you **walk!**

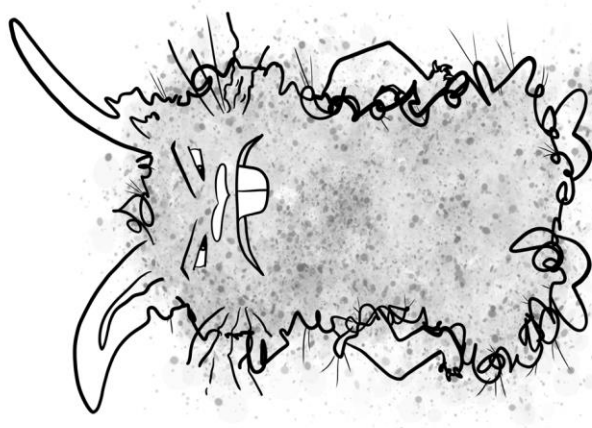

walk the walk be it a stalk,
Slither or scurry but its
always best to be in a hurry.

Run for fun,
jump or thump,
wiggle or waggle,
bounce or pounce,
march or crawl or just stretch up tall.

If ever you see a detestable,
disagreeable, devious dust bunny
and cannot hide to save your life.

Use Little Lizzie's and Mr. M's
guidelines to act out your monster
walk. Pick and choose what works
for the best monster you! Or even
create your own!

Draw your best
monster-you footprint
here!

Oh no! You have been caught by a dust bunny! Use your monster talk to get free!

Call if you must but know monster talk is never at all hushed.

Screech or growl,
bark or a howl,

Snarl or snarl,

does not matter how,

babble, blare or bellow

especially in the company of another monster fellow.

Wail, wime or yelp
but never, ever call out for help.

Now, there is something that I have forgotten,

Oh yes, that is to say please and thank you often.

3rd: You Need To:
Talk like a mOnStEr

Writer here. ...

Use your monster talk to get free!

Write down what you would say to a dull, difficult, disgusting dust bunny here!
